

Copper-Coated Welding Wire

FEED YOUR MACHINE

NS ARC™ Copper-Glide™ – the ultimate copper-coated carbon steel welding wire solution for enhanced corrosion protection and superior performance. This welding wire has been optimized for improved electrical conductivity, smooth wire feeding, and superior arc stability while offering high versatility across several applications.

BENEFITS

- Strength
- Cost-Effectiveness
- Versatility
- Ease of Use
- Good for Thick Materials
- High Machine/Application Quality
- Electrical Conductivity
- Smooth Wire Feeding
- Corrosion Protection for Storage

APPLICATIONS

- Agricultural Equipment
- Auto Body
- Automotive Exhaust
- General Fabrication
- Heavy Equipment
- Pipe Welding
- Pressure Vessels
- Railcars
- Shipbuilding
- Structures
- Trailers
