

Metal-Cored Welding Wire

FEED YOUR MACHINE

Experience the next level of welding control, quality, and efficiency with NS ARC™ Tru-Core® MC metal-cored welding wire. With its superior performance and versatility, Tru-Core® MC is a preferred choice across industries. Say goodbye to slag and enjoy effortless cleanup while benefiting from precise control in flat or horizontal positions, especially for semi-automatic welding applications. Its low spatter, high productivity rate, and consistent performance help achieve high-quality welds with speed and efficiency in diverse industries.

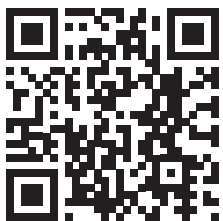

BENEFITS

- Increased Productivity
- Improved Weld Quality
- Better Control
- Reduced Distortion
- Higher Travel Speed
- Lower Fume Emissions

APPLICATIONS

- Agricultural Equipment
- Automotive
- General Fabrication
- Heavy Equipment
- Pressure Vessels
- Shipbuilding
- Structures
- Trailers
